

RANGER WHEELCHAIRS EXPRESS S T A N D E R

Now, the clinical benefits of standing (circulation, digestion, bone density, muscle tone, respiratory health...) are available alongside uncompromised mobility. The most advanced and compact power stand-up system in the industry is also one of the most powerful and versatile power bases.

Our made-to-order Precision seating system starts at the client and works outwards. The result is a system that is tailored to your unique needs and environment. With programmable safety features and adjustable seating and positioning aids, your comfort is assured.

Sometimes becoming exceptional means refusing to compromise.

AVAILABLE ON MULTIPLE POWER BASES

Start with an Express, Express Compact, or modified MDX Power Base

Combine Ranger's custom Smart Relays with R-net controls by PG Drives

Our made-to-order Precision Seat provides precise fitting as well as growth & adjustment potential

Each frame is based on a modular design that starts from the user & works outwards

Custom Programmable Switches ensure user safety & system integrity

In addition to the stand-up power function,
other optional functions include:

Tilt • Low Shear Recline • Articulating Footboard • Elevating Seat
